

TriNet 401(k) Plan

Adding value to your benefits offering

By managing your benefits through TriNet, you have demonstrated that you are committed to delivering a robust benefits package to your worksite employees while maintaining focus on growing your organization. In addition to your core business solutions, you need a strong retirement plan to round out your value-added worksite employee benefit services.

The value of adopting the TriNet 401(k) Plan

TriNet, in collaboration with Empower, offers a comprehensive retirement plan solution for small businesses with simple implementation and administration at low cost. TriNet enables you to offer a high-quality retirement benefit while relieving your administrative burden. It can also minimize your fiduciary responsibilities.

Perhaps most importantly, the plan can not only help you attract and retain quality worksite employees, but encourage them to make sound decisions to help meet their retirement goals.

Plan features

- Streamlined plan management with features and services typically available only to larger companies
- A dedication to plan health powered by targeted communications and education
- A comprehensive variety of investment options
- Flexible plan design options
- A seamless installation process
- Plan management services, such as non-discrimination testing and annual company contribution allocations

Empower's commitment to the multiple employer plan (MEP) industry stems from years of experience and has enabled us to design a plan that offers many benefits.

A low-cost solution

If you are currently managing a plan on your own, then you may be paying for basic plan services, such as annual audits, Form 5500 preparation and filing, and non-discrimination testing. As part of the TriNet 401(k) Plan, these services are typically included in the overall pricing. Your final cost for retirement services may be lower since you benefit from being part of a larger plan.

Additionally, if you do not currently manage your own plan, consider this: with TriNet, you may be able to save on the cost of plan adoption and onboarding.

Streamlined plan management

You can focus on other priorities, knowing that knowledgeable retirement professionals are handling the daily operations of your plan.

Empower's secure plan sponsor website provides timely access to information and the ability to initiate plan transactions quickly and easily.
