The Impact

Based on our conversations, here is how TriNet is best positioned to impact your business.

ATTRACT AND RETAIN TOP TALENT

Intellectual capital drives the success of your business. You're looking to recruit and retain the best talent. To build the ideal workforce, you should be able to hire a geographically distributed workforce without additional compliance complexity.

MAXIMIZE RESOURCES AND PRODUCTIVITY

It's difficult to manage HR effectively without shifting focus from your business priorities. You're interested in maximizing your existing resources and minimizing the distraction of administrative work—so you can focus on the best outcomes for your clients.

DELIVER A COMPELLING EMPLOYEE EXPERIENCE

You want to foster a positive culture where employees feel recognized and grow in their careers. With HR administration and payroll processing help, have more time to focus on culture. and your employee development.

MANAGE BUSINESS EXPANSION

More business heightens your need for scalable HR processes and systems that will scale with your success. A unified system for streamlining HR administration and payroll distribution eases these common headaches.

MAINTAIN COMPLIANCE IN A DYNAMIC ENVIRONMENT

Keeping up with ever-changing employment regulations requires specialized expertise and time.

PREPARE FOR THE UNEXPECTED

You need to be ready to navigate HR complexities as fast as the current news cycle. Planning and being prepared with the help of trusted HR experts will determine how quickly you can pivot in unexpected times.

Customers that trust us

HR Expertise

Receive guidance on intricate HR challenges so you can maintain best practices.

Benefits Administration

Administer and manage your open market employee benefits using the TriNet platform.

Headache-Free Payroll

Take care of all aspects of payroll processing helping to ensure timely, accurate payment and payroll tax compliance.

Risk Mitigation and HR Compliance

Navigate the complexities of employment-related compliance concerns, staying up to date with federal state and local requirements.

Technology Platform

Scale your business and delight employees with leading edge technology.

The PEO model lets you focus on your business

The professional employer organization (PEO) construct operates under a co-employment model in which the PEO, as the co-employer, under the parties' contract assumes certain human resource, health and welfare benefits, workers' compensation coverage, and related responsibilities for payroll processing and payroll tax filing. The client maintains control over its workforce in decisions like hiring and firing, setting compensation, culture, and more. The PEO model also allows co-employees access to a range of benefits and other services.

Benefits Options: Attract and retain great people with top-tier benefits

An extensive employee benefits offering is an important recruiting tool and a great way to drive employee satisfaction. Access to leading employee benefit plans is no longer reserved for large firms. TriNet's employee benefit plans include 401(k) plans with a variety of investment options. TriNet also provides access to additional benefits such as life & disability, pre-tax commuter benefits, pet insurance, identity theft protection, and more.

HR Compliance: Protecting your business every step of the way

Employment-related claims are a standard hazard of being an employer. In 2023, approximately 81,000 discrimination charges were filed with the Equal Employment Opportunity Commission (EEOC).¹ Average reported EPL losses were approximately \$102,915 according to a CHUBB private company risk survey.² Plus, the financial impact doesn't include the extra time, effort, and stress taken to resolve the situation. Employment Practices Risk Management helps protect your business from many potential employee claims such as discrimination and harassment, disability, wrongful termination, and unlawful retaliation. Our comprehensive program helps prevent issues from arising and supports you in the event of a covered claim with claims management expertise.

Claims Prevention with expert guidance

- Reference library
- Artificial intelligence for worker classification and FLSA status
- Legal hotline

Claims Coverage with comprehensive insurance

- \$1 million EPLI coverage
- Active claims management

Claims Mitigation with management and advice

- A dedicated team manages and reviews covered claims and invoices
- Pre-negotiated fees for external attorneys

Payroll Processing Key Features

Payroll Tax Calculations, Remittances, and Filings

TriNet calculates and withholds federal, state, and common local payroll taxes. The withholdings are electronically remitted to the government on your behalf. We also file your payroll tax documents and prepare forms, including Form W-2s.

Real-Time Payroll Entry

The payroll entry grid provides access to real-time data, including any pay, department, and status changes. Filter by your exempt or non-exempt employees or search for a specific employee. Add earnings codes on the fly and keep the most commonly used earnings codes on the same screen. View pay rates and recurring pay, and review, correct, or approve any items that have been flagged. The payroll entry grid integrates with time off management and updates for Form I-9 completion, pay rate changes, new hires, and more.

Payroll Preview for Estimated Invoices

Access a high-level view of payroll processing activity, individual employee paychecks. Expand employee rows to see mini-paystubs showing payroll detail for each check. View an estimated invoice that is updated in real time as you add employees or make other changes within the payroll grid. Easily save to PDF or export to Microsoft Excel.

Time Off Tracking

Time off balances are updated in real time, making it easier for your employees and managers to manage time off. An easy-to-use dashboard shows accrued, planned, and taken time-off for vacation, sick, and other time off hours. Upcoming time off requests are easily accessible by managers, providing a more informative view for workforce planning. Smooth workflows with actionable email notifications encourage timely approvals, leading to more accurate payroll processing.

Robust File Import Capabilities

Create import profiles for different types of payments. Import various files, and eliminate the need to edit any one profile due to multiple payment types. You can also import different pay rates for an employee, and all associated unit pay rates will be displayed on the payroll entry grid.

Detailed Payroll Reports

Access more than 20 standard payroll, billing, and HR reports to gain valuable insight into your HR, and payroll. Reports are easily exported to PDF and CSV formats and include details around payroll registers, job costing, and employee data, along with options to sort by department.

HR Expertise: Manage HR with ease and confidence

You and your team get HR expertise when and how you want it. Gain access to an HR team that features a relationship with your assigned support professional that knows you and your business, and is backed by experts and specialists who you can access directly. Rounding out the team is your relationship manager who is there to help align your organization with TriNet's services.

Technology Key Features

Online Payroll Processing

Our payroll administration services include paperless payroll with e-pay stubs for your employees, direct deposit, electronic Form W-2 preparation and delivery, and payroll tax processing and remittance. The payroll grid provides access to real-time data, integrates with time off management, and updates for pay rate changes, new hires, and more.

Benefits Administration

Review and adjust your benefit funding strategy based on your unique business needs. Our breadth of coverage includes TriNet sponsored life, and disability insurance to retirement plans, and commuter benefits, all curated through our technology platform.

Analytics and Reporting

Turn your HR data into actionable insights to help you make informed business decisions. We'll show you how easy it is to generate visualizations and detailed reports using your people data with just a few clicks. All of this is powered by our workforce analytics HR software that helps you gain the insights you need to make informed strategic decisions.

APIs and Integrations

APIs and integrations with programs such as QuickBooks® make it easy to connect your existing systems to TriNet, helping you eliminate double entry and enable accurate financial reporting.

Personal Dashboard

Personal dashboards are available to your employees, giving them a quick snapshot of relevant HR information including time off, paycheck overview, and upcoming holidays. Admins can also post and share company announcements through the TriNet platform.

Time Off Tracking

View accrued, planned, and taken time off for vacation, sick, and other time off hours. Upcoming time off requests are easily accessible by managers, providing a more informative view for workforce planning. Smooth workflows with actionable email notifications encourage timely approvals.

TriNet Mobile

Stay current with the most important HR data when you're on the go. Access real-time information on pay, time off requests, and a company directory on your Android or iOS devices.

Document Management

Keep your critical HR documents secure. With Document Management, backed by Box, managing your employee HR documents becomes a breeze. Request documentation, validate employee certifications, track uploads and more directly from the TriNet platform.

Time and Attendance

Simplify the timecard process with our time and attendance tools. Track total hours worked, time off taken, overtime hours and project expenses, while your employees can view their schedules, clock in and out, and request/manage time off.

Expense Management

Eliminate common hassles with our expense management system. Import expenses and automate the approval process with a paperless option. You can also create, submit, and approve expense reports online or through our mobile app, which is then transferred to payroll for reimbursement.

With the right HR solution you can:

Mitigate risk and get help staying compliant

Focus more time and energy on clients

Hire and retain top talent in any state

“The biggest thing is being able to focus on the customer and our employees, not on the minutia of all the Byzantine business aspects of things.”

Challenge

For a renowned creative agency with more than 100 employees, staying abreast of employment-related requirements would have taken time and resources away from core business functions.

Solution

TriNet's end-to-end approach to employment-related compliance includes updates from HR experts, technology features, policy support and expertise on best practices to help mitigate risks.

“TriNet supports us in a way where they’re going to help us move along. You want to see the business get bigger, better, stronger and we definitely need TriNet to help us change and comply along the way.”

Pricing: Transparency— a value we stand by

You know the benefits that full-service HR can bring. However, you should also know the exact cost of your services. TriNet charges a flat fee on a per-employee-per-month (PEPM) basis, so your costs are predictable.¹ Many other PEOs charge as a percent of your total payroll, which makes it difficult to know how much you're paying for what.

If your employee:	TriNet's Pricing Model	Bundled Fee Model
Reaches wage cap for Social Security	Tax charge reduction for employer and employee	Tax charge reduction for employee, but not employer
Gets a raise	Administrative fees stay the same	Typically, bundled fees go up
Reaches cap for unemployment taxes	Employer tax charges reduced	Typically, no reduction in fees
Elects pre-tax medical deduction	Tax charges reduced for employer and employee	Typically, no reduction in employer fees

TriNet's pricing plans are for new clients only and can vary by region, industry, company size and scope of services.

¹ Payroll taxes are subject to periodic adjustments by relevant government authorities and this is an estimate based on annual employee wages and wages capped as applicable according to federal and state taxing authority guidelines. PEPM charges applicable as portion of the rate on each pay cycle run charged per check fee.

Cost Summary

State	Class Code	W/C	FICA	FUTA	SUTA
TX	8820	0.043	7.65%	0.60%	3.50%

The W/C (Workers' Compensation) rates are applied to every \$100 of applicable compensable wages of each of your employees (except in WA where rates are applicable hourly rates). Appropriate rates will be applied in respect of any additional W/C Class Codes that become relevant, including if we determine that the Class Code was not the most appropriate for your employees. FICA and FUTA are charged at the federal rate. SUTA is charged using either (i) a rate determined by us or (ii) if provided by law, a rate based on your experience rating as assigned by the applicable state, if applicable. TriNet SUTA rates may include administrative charges necessary to manage our unemployment services which will not exceed the maximum rate permitted by each applicable state. Disclaimer: The rates as shown are estimated at the time of the generation of this proposal and are subject to change pending receipt of new information from you or the state. The rates that will apply to you will be the rates that are valid at the time you sign a service agreement with TriNet. We are providing this to you under the condition that it remains confidential. You may not share this proposal or any of its pricing with any third party without our express written consent, except to your own directors, partners, employees, or to your trusted advisors, as required, in order to evaluate and to make decisions about working with TriNet. There are some duties for which you remain responsible, including payment of all payroll-based excise, franchise, business, revenue, and head taxes. This proposal is for informational purposes only, is not an agreement, and is not a binding offer to provide services and may not be incorporated into a contract. A contract for services will exist only when your company and TriNet complete and sign the TriNet Services Requisition Form. This proposal is not an offer to sell insurance or to give accounting, tax, or legal advice, nor will TriNet ever offer you such services. If you desire these services, please contact competent professionals in those areas. All trademarks, trade names, service marks, and logos referenced herein belong to their respective companies.
